

CleanWall™ Porcelain Panel System Series 7000

EXTECH
EXTERIOR TECHNOLOGIES, INC.
Creative Design & Manufacturing

You Imagine, We Deliver

Performance That Shines.

EXTECH's CleanWall™ Porcelain Wall System (Series 7000) expertly resists graffiti, vandalism, scratching, chipping, gouging, and other environmental damage with its smooth finishes, rounded corners, enclosed edges, and concealed fasteners. CleanWall's™ porcelainized panels and robust aluminum framing create a durable, flexible, and virtually maintenance-free system allowing for quick and easy installation, individual panel replacement, and easy cleaning. With variable panel sizes, easily adaptable framing, and the performance of porcelain, CleanWall™ is a design star ***ready to shine!***

CleanWall™ Porcelain Panel System Series 7000

No Match for Vandals

- Porcelain panel finish is scratch and graffiti resistant, even against permanent marker tags
- Robust, noncorrosive, heavy-gauge aluminum framing engineered to resist vandalism
- Eight (8) micron thick porcelainized 26ga steel face sheet laminated over ½" cement board with steel backer sheet provides superior impact resistance
- No unframed porcelain panel edges susceptible to vandalism and chipping

Easy to Use

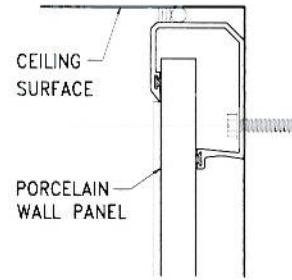

- Components can be provided prefabricated
- Nearly zero maintenance
- Rounded inside and outside corners for improved safety, durability and cleaning
- Individual panels are removable for:
 - Panel replacement without disturbing adjacent panels
 - Inspection access behind panels (e.g. structural waterproofing, electrical, etc.)
 - Post installation of wiring and through-wall recessed devices
- Easily installed over a wide variety of substrates
- Integrated support bracket system for easy installation of devices (e.g. signs, lighting, strobe lights, etc.)
- Allows for repeated installation and removal of adhered advertising films

Designed with Design in Mind

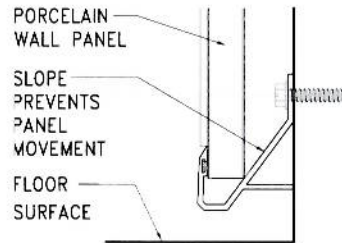

- Unbroken panel lengths up to 12'
- Framing can accommodate 1/2," 3/8," or 1/4" panels in a variety of widths
- Available in matching or contrasting finish colors
- Adaptable to wall openings and varying field conditions

Backed by EXTECH's more than 35 years of engineering experience
